Praise the Lord!

We have just completed one year of itineration and it has been a year of great experiences for us. Our travel has enabled us to make a lot of friends. We have participated in many services in various formats, sizes and colors. We are now familiar with many restaurants that we have patronized with pastors and missions directors.

In September we held our first street outreach in the city of Artesia. La Mirada Living Faith church came out with about 50 members to walk the streets with tracts, CDs and Jesus Videos. Thanks to Ps Jack Miranda & the team.

We continue to visit many churches upon invitation. This has also enabled us to raise awareness of Indian ministry in every city we visit. We thank the Lord for the various opportunities He provides.

We have just finished our website and you may visit us at www.anandministries.com

Work is progressing very well on the church building. With the help of some churches and MAPS workers, painting is now complete. Carpets will be laid soon.
